Umbrella

Revolution is coming.
Join it.

The system is fucked. You know it, everyone knows it. Don't just sit around and watch everything collapse. Build what comes next. A revolution in politics, economics – our entire way of life. **It's time to unfuck the system.**

We are going for it. Join us.

Umbrella is an organisation that will help to build a revolutionary social movement for the long term. It will coordinate across a number of different campaigns, each of which will be pushing for the *radical social change* we need at this time.

will take part in the 2024 election. Working with other groups, we will hold local assemblies to select local candidates for the election and build a popular mass movement after the election. The goal is to create a "People's House" to parallel the House of Commons as the first step towards permanent, legally-binding citizens assemblies.

Robin Hood...

is still in development and considering proposals. The project will address key social issues to go to the heart of what's wrong with our economic system and the inequality, greed and corruption destroying our public services and exposing us to climate collapse.
